**With the support of :** Jacqueline Morabito, Clémence Farrell, Christian Jouenne, Loïc Fauchille,  
Eric Viennot, Nikolaus Barta

### Infinite Village

The *Infinite Village*, presented as part of « Les Parallèles du Sud » program of the 13th edition of the Manifesta Biennale was designed by Cora Von Zezschwitz & Tilman (Canada / France / Germany), artists and curators, under the artistic direction of Francisca Viudes, curator, artistic director of Espace Lympia and founder of The (He)art for (He)art Program in Nice.

Taking place at Espace Jouenne in Marseille, then at Le 109, a pole of contemporary cultures, as well as at the Windsor Hôtel (where the OVNi Festival will also be held, from November 20th to December 6th) in Nice, the *Infinite Village* is a social, collective and architectural sculpture that invites you to experience a "common". This artistic, participative and educational platform will occupy the cities of Marseille and Nice in various forms (installations, performances, workshops, conferences and screenings), offering plural activities to share with local residents, international guests, associations and the public. This European and International entity is drawing a new togetherness and humanist future.
